THE MOST SOCIABLE EMPLOYEE

Carry out a variety of original tasks in different team formations.

Sometimes you'll work closely together in teams of 2, sometimes in teams of 10, 5, or 4 participants... Because the teams are constantly changing, you'll get to work with everyone and you'll get to know each other in a different way from your usual work environment. After each task, points are awarded individually. At the end of this concept, there is one winner. That person can proudly call themselves the "Most Social Employee" for at least one year.
